**AMENDMENTS TO THE SPECIFICATION**

**Please amend the specification as follows:**

[0107] With reference now to Figure 12b, the alarm system 66 is shown mounted to the ECU 28. As illustrated, the alarm system 66 advantageously is a stand-alone unit that allows the alarm system 66 to be a conveniently installed option in factory prepared motorcycles. The alarm system 66 includes the power circuit ~~78~~ 72, the alarm device 62 and the vibration detection circuit 78. In some arrangements, the capacitor circuit ~~78~~ 74 can be included within the alarm system 66 as well.
